

MOTORCYCLE PARTS PRICE DATABASE

MRC Malaysia builds, localizes and manages a single national centralized database of automobile parts prices and repair times for use as a standard in the processing and recording of automobile insurance claims. Now, MRC Malaysia is taking another big step to continue to contribute to the industry by introducing a new Motorcycle Parts Database. The pilot Motorcycle Parts Database will be released on 1st of July 2021 and it consists of the 2 largest motorcycle companies in Malaysia, Honda and Yamaha.

There are 18 models of Yamaha and 15 models of Honda which consist of more than 18,000 parts collectively. By introducing this new motorcycle parts database, it will provide a standard, reduce subjectivity and will act as a point of reference to improve claims processing and increase transparency.

MANUFACTURER:

NO. OF MODEL:

$$\begin{array}{ccc} 15 & + & 18 & = & 33 \\ \text{HONDA} & & \text{YAMAHA} & & \text{MODEL} \end{array}$$

NO. OF PARTS:

$$\begin{array}{ccccc} 3,839 & + & 14,175 & = & 18,014 \\ \text{HONDA} & & \text{YAMAHA} & & \text{TOTAL PARTS} \end{array}$$
